CPL (H) INTEGRATED

COMMERCIAL HELICOPTER PILOT

WORLD AVIATION
FLIGHT ACADEMY

COMMERCIAL HELICOPTER PILOT

REQUIREMENTS

- Minimum age: 17 years
- Valid National ID / Passport
- Class 1 Aeronautical Medical Certificate
- English language knowledge
- Upper Secondary Education Certificate, Vocational Training qualification or university access examination

COURSE

- The course is designed to provide students with the knowledge and practical experience required to work as a helicopter Pilot/Co-Pilot.
- Award of the Commercial Helicopter Pilot Licence (CPL(H)), meeting the highest standards of safety and quality.

OBJECTIVE

- The course comprises 795 hours of theoretical instruction and 135 flight hours.
- Theoretical training is delivered from Monday to Friday, and practical flight instruction takes place every day of the year from 09:00 until sunset.
- Internal examinations are conducted to ensure that students successfully pass the official AESA examinations.
- Real flight training is carried out using state-of-the-art aircraft, and students will have access to the World Aviation Simulator Centre.

INCLUDED

- Theoretical and practical classes
- Airport fees
- Uniform and flight equipment
- Course syllabus, manuals and study materials, checklists
- Access to an online platform for class management and scheduling
- Fees for sitting theoretical examinations (one sitting)
- Flight hours and skill test fees (one per licence and rating)
- Medical examination

WHY CHOOSE WORLD AVIATION?
